

Editorial

There is a proverb in the health science that “mouth is the gateway of health”. Good oral health is the most important part of human health. The incidence of oro-dental disease has become very common in our country. Teeth play very important role in eating, speaking and esthetics of individual. Unfortunately, the growth of dental health care in our country is surprisingly neglected. Our people are not usually well conscious about their oro-dental health care.

Bangladesh dental journal is a mirror of dentistry including its special branches. It reflects the current advancement in treatment and research in dentistry. We believe that this journal will play an important role for education and communication for all levels dental surgeons in Bangladesh.

We have tried to include all the disciplines of dentistry so that the specialized of those subjects can enrich their knowledge. We always tried to ensure the quality of each article. An expert panel of reviewers was involved to standardize the quality of articles.

In addition, I would like to mention that the previous committee during the period of 2012-2015 did not publish any issues of Bangladesh dental journal. Newly elected executive of Bangladesh Dental Society has been formed this (current) new editorial board. It was very hard for us to publish the four volume of previous issues. But we tried hard and became successful to publish these issue.

This issue has original articles 10, case report 01 and review articles 03 of different fields of dentistry.

I am grateful to the panel of reviewers, all the executive members of Bangladesh Dental Society and my colleges who gave me guidance and idea in editing and publishing the journal successfully.

Dr. Md. Humayun Kabir
Editor-in-Chief
Bangladesh Dental Journal
